TITLE : BLADE HOLDER OF PAPER CUTTER

ABSTRACT : PROBLEM TO BE SOLVED: To replace a blade without directly touching a cutting blade.

SOLUTION: A rail is arranged on a baseplate, and a slider is movably installed on this rail, and a blade holder 55 is installed on a side surface of the slider so as to be freely mountable and demountable. The blade holder 55 is constituted by having a case 61 housing a circular blade 60. This case 61 can be freely mounted on and demounted from a support member 62 received by a holder guide 63 fixable to the slider, and is supported between a side surface of the slider and the support member 62 in a condition where the holder guide 63 is fixed to the slider.
